## Localization

### Change app language

In the web app, Bitwarden will default to your browser's language, which is often determined by your designated system language. The browser extension, mobile app, and desktop app will default directly to your system language. The language can be manually changed on the following Bitwarden clients:

<https://player.vimeo.com/video/795737043>

### ⇒Web app

1. Select **Settings** → **Preferences** from the navigation:

## Preferences

Customize your web vault experience.

Timeout —

### Vault timeout action

Lock

Master password or other unlock method is required to access your vault again.

Log out

Re-authentication is required to access your vault again.

Language  —

Change the language used by the web vault.

Show website icons 

Show a recognizable image next to each login.

Theme —

Choose a theme for your web vault.

**Save**

Preferences

2. Select a language from the **Language** dropdown.

### ⇒ Desktop

1. Open the desktop app's **Preferences** panel (on Windows, **File** → **Settings**) (on macOS, **Bitwarden** → **Preferences**).

2. Scroll to the **App Settings** section and use the **Language** dropdown to select your language.

### ⇒ Mobile

1. Open the mobile app and tap the **Settings** tab.

2. Tap **Appearance**.

3. Locate the **Language** field and select your preferred language:

Language on mobile

#### 4. Restart the application in order to apply changes.

Bitwarden browser extensions will dynamically change to use the language set by your web browser:

- [Learn how to change Chrome's language](#)
- [Learn how to change Firefox's language](#)

## Currently supported languages

The following languages are currently supported. Please note, **not all languages are available for all client applications**:

Symbol	Language
af	Afrikaans
ar	الفصحي العربية
az	Azərbaycanca
be	Беларуская
bg	български
ca	català
cs	čeština
cy	Welsh
da	dansk

## Don't see your language?

If your language isn't listed in the web vault or desktop app, or if your browser extension or mobile app isn't dynamically using your language, **we want your help!**

Bitwarden uses a translation tool called [Crowdin](#) to manage our localization effort across many different languages (**no programming knowledge required**).

- To contribute to or make corrections to an existing translation, join our project.
- To start translating Bitwarden to a new language, join our project and contact the project owner.
